

Project Demo Planning

Date	01 October 2026
Team ID	6ab22737f32d8c9d8b225a8a
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the team and explain the problem: Incident form allows incomplete data entry and inconsistent field behaviour.	2	Member 1
2	Solution Overview	Explain the approach: UI Policies for mandatory, visible and read-only fields; Client Scripts for onChange and onSubmit validation.	2	Member 2
3	UI Policy Demonstration	Show mandatory fields, On Hold reason visibility and read-only fields on a Closed incident.	3	Member 3
4	Client Script Demonstration	Show Category/Subcategory clearing and the High Impact/Urgency alert on the Incident form.	3	Member 4
5	Resolve Validation Demonstration	Try to resolve an incident without Close notes and show the onSubmit error message.	2	Member 1
6	Conclusion & Q&A	Summarise the outcomes and answer questions from the evaluators.	3	All Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Brief the evaluators on the Incident form issues.
2	Solution Overview	Outline the UI Policies and Client Scripts built.
3	Live Feature Demonstration	Run each feature live in the ServiceNow instance.
4	Q&A Session	Answer questions; refer to the feature checklist.
